Introduction
SEWA Cooperative Federation works as an Enterprise Support System (ESS) to support women’s collective enterprises (WCEs), across sectors, enabling them to become viable, to innovate and to scale. Over 25+ years, we have promoted 100+ women’s cooperatives, reaching 300,000 informal women workers.

Founded by Ela Bhatt in 1972, the Self-Employed Women’s Association (SEWA) works to empower poor women in India’s informal economy by equipping them with the personal confidence, community support, and practical tools necessary to fulfill their needs and exercise their rights. With over 2 million active members across 18 states, SEWA is a nationwide movement, comprising several autonomous sister organisations in various fields of expertise.

We are set apart by our ability to integrate state- and national-level strategies with grassroots values and priorities. Through our close ties to an extensive, diverse, and multigenerational network of members, we bring women together into a supportive network, tailor a wide range of large-scale development programs to specific community needs at the local level, and provide both capacity building support and a national platform for women on the ground to voice their concerns and advocate for their rights at the highest levels of policy and industry. Through our philosophy of women’s empowerment, and our vision of securing self-reliance and full employment for one of India’s most vulnerable populations, we unify members across cultural, geographic, and linguistic lines to bring about sustainable, inclusive change from the ground up.

To achieve these goals, SEWA Cooperative Federation comprises of a team of experts, both for organisational guidance and for sector-specific knowledge in:

- Business development and strategy
- Marketing
- Capacity building
- HR and Administration
- Research and advocacy
- Financial Management
- Compliance
